# About us

Jay Vee Engineering was established in the year 1995 under the dynamic leadership and visionary endeavour of Mr. S.Udayakumar is a veteran in the field of fabrication and erection of structures, with a vision of providing the complete package of best designing till execution services in the construction industry.

With our three decades of experience we have managed to create a niche in the market and have earned reputed customers, with repeat projects from some of them. Our attitude to understand customer divergent requirements, has helped us to complete the projects on time by providing efficient service at every stage, ensuring information to customer and their satisfaction. We strive to meet and modulate ourselves to the needs and requirements of the customers, in the process ensuring maintaining strong awareness to protect our natural resources and environment. Our Vision is to provide excellent experience with superior quality, at an affordable cost.

## Vision

To be recognized as the global leaders for the design, manufacture, supply and erection of Pre-Engineered Steel Building (PEB), and all kinds of fabrication structures.

## Mission

Jay Vee Engineering will achieve this vision by consistently delivering high-quality, Cost-effective products to our customers, accompanied by personalized service and a commitment to excellence.

## VALUES

**“Construct your Future”**

- Straight-talking:** We encourage open debate where the best ideas win.
- Customer centric:** We put our customers at the center of our focus and initiatives with the objective of providing them with unmatched levels of services and products.
- Teamwork:** We actively share information and ideas, enthusiastically working to make those around us better.
- Empowerment:** We empower people to make decisions with a bias for action.
- Employees as core assets:** We believe that our employees are our most valuable resource, and do whatever it takes for their continuous training, development and motivation.
